

# SAN DIEGO AUTOMOTIVE MUSEUM

Dear Friends of the San Diego Automotive Museum,

**At the San Diego Automotive Museum the safety of our visitors, volunteers and staff is our utmost concern.**

As we all know, the COVID-19 situation is evolving rapidly. We – like the majority of Balboa Park cultural institutions – are following the guidelines of the Centers for Disease Control, County of San Diego Public Health Department, SD Unified School District and other verified sources to determine museum operations and public programming as concerns grow in our region related to the Coronavirus.

The good news is, our museum is open for business with regular operating hours. The San Diego County Government announced restrictions on gatherings in public places, including social distancing of 6 feet between participants at smaller gatherings and the rescheduling of all events for 250 or more people through the end of March. In accordance with these restrictions, the San Diego Automotive Museum is restricting the number of guest in the museum to 200, due to the size of our space and the layout of our exhibit.

To see the County's announcement, please visit the county's [Coronavirus Disease website](#). You may also wish to download the [San Diego Emergency app](#).

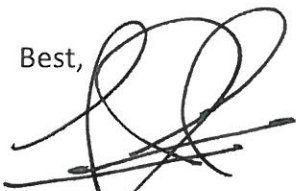

**We have, and continue to take the following preventative measures:**

- Implemented additional health and safety precautions to maintain the cleanliness of our shared spaces
- Aggressively increased our sanitation efforts in all high-traffic areas.
- Installed additional sanitizer dispensers for guests throughout the museum.

We encourage staff and volunteers that are ill to stay home, and to exercise an abundance of caution. Please check our website and social media platforms for updates regarding any changes to business operation.

Thank you for your support and understanding, and on behalf of everyone at the museum, I wish you health and wellness at this time.

Best,

Lenny Leszczynski  
Executive Director
